

# Hooray for Spare Change!

## DIY Sorting Game for children 3 to 6

Teach children about the value of money and develop their math skills using spare change right in the comfort of your own home.

### What you'll need:

- Collected spare change\* (the more the better)
- Optional: coin wrappers

### Let's Get Sorting

#### For ages 3 to 6 (supervised)

Using a pile of collected change, have your child separate each denomination into separate piles. Talk about the differences and similarities between the different values with your child as you go.

*\* We recommend washing the coins with dishsoap and drying them before use.*

*GET THOSE FINE MOTOR SKILLS GOING AND HAVE THEM HELP YOU ROLL THEM INTO COIN WRAPPERS!*

**Call us today.** Learn more about our Save. Spend. Give. program and how children can learn responsible money management while having fun!
