

Identify Penny's Coins!

Worksheet for kids age 4 and up.

Help Penny to sort the coins in her piggy bank and figure out how much she has saved.

What you'll need:

Crayons, colored pencils or markers.

Directions:

1. Color each type of a coin a different color by following the directions below.
 - Penny – **red**
 - Nickle – **blue**
 - Dime – **green**
 - Quarter - **yellow**
2. Next, on the back of this worksheet fill out the total amount of coins and their values.

How many pennies did you find?

How much is a penny worth?

What is the total value of all the pennies you found?

How many nickels did you find?

How much is a nickel worth?

What is the total value of all the nickles you found?

How many dimes did you find?

How much is a dime worth?

What is the total value of all the dimes you found?

How many quarters did you find?

How much is a quarter worth?

What is the total value of all the quarters you found?

How much did Penny save?

Add the value of all the coins.
